

Australian Society of Dental Anaesthesiology

Sedation Reendorsement Course — Westmead Wednesday & Thursday 6/7 December 2017

This is simulation based training using the principles of Anaesthetic Crisis Resource Management (ACRM) to improve outcomes in an emergency. It is an AHPRA approved sedation reendorsement program.

Due to the positive participant feedback and observed improvement in the performance of those sedationists who have participated in the two-day program run in conjunction with the ASDA Annual Scientific Meeting, ASDA & Dr Ken Harrison have resolved to make all of our reendorsement courses two days.

Day One is designed to refresh and improve the skills required to manage medical emergencies and sedated patients.

Day Two is the immersive, simulation based training – focussing on application of the skills developed on day one. This involves managing medical emergencies in a simulated dental environment, with a focus on developing non-technical skills and the application of the principles of Crisis Resource Management.

Presenter: Dr Ken Harrison

Times: Registration from: 8am
Course: 8.30am – 4.30pm (Both days)

Fees: (for both days – Fees include GST)
