This is ASDA's AHPRA/DBA accredited training for the annual re-endorsement of conscious sedation practitioners. It is also excellent for dentists performing procedures on sedated patients and their assistants. You must complete both days of this course for reendorsement.

DAY 1: Thursday 21 June 2018 – Meet in the Broadbeach Room

These practical workshops are the first day of the AHPRA / DBA approved ASDA Sedation Re-endorsement program. They have been developed using feedback from participants on areas felt they require additional training to confidently manage emergencies in their practices.

Building on the program from the last 4 years, we will be covering essential workshops including: airways management; applying BLS / ALS protocols (including CPR refresher), leadership/teamwork & communication in emergencies.

DAY 2 – Friday 22 June 2018 – Meet in the Broadbeach Room

After the success of ASDA's new SIMMAN ALS the SIMMAN 3G from Westmead and portable dental chairs in 2017, and we don't need to change venues for day 2 of our reendorsement course – we will be continuing in-house at the Sofitel with our mock dental surgeries.

Practical, simulation-based training in the management of medical emergencies during dental sedation, using crisis resource management principles.
